LED PICO PROJECTOR:

AAXA Technologies introduces the AAXA ST200 which delivers a true 720p native resolution without the use of pixel turning, optical tricks or digital up scaling. The ST200 LED Pico Projector's solid state LED source has a lifespan of 15,000 hours and is mated to a third generation LCOS imager. The ST200 is an all-in-one powerhouse featuring a 60 minute lithium ion rechargeable battery and an onboard media player capable of, digital picture and video playback as well as an array of inputs such as HDMI, VGA, composite AV. The ST200 is unrivaled in performance in its category.
