# Pico Projector

The P2 Jr Pico Projector is a personal projector similar in size to the average smart phone. At only 1" thick, the P2 Jr employs AAXA's next-generation optical engine which produces an brilliant 55 lumens – over 2x brighter than the competition. With a built-in Micro-SD Card port, USB input, 1-watt speaker, and robust ARM micro-processor the P2 Jr is capable of projection videos, pictures, and music files as well as direct connection to devices such as the Apple Iphone, Samsung Galaxy, DVD players, and Game Consoles.
